

IoT & Mfg 2016

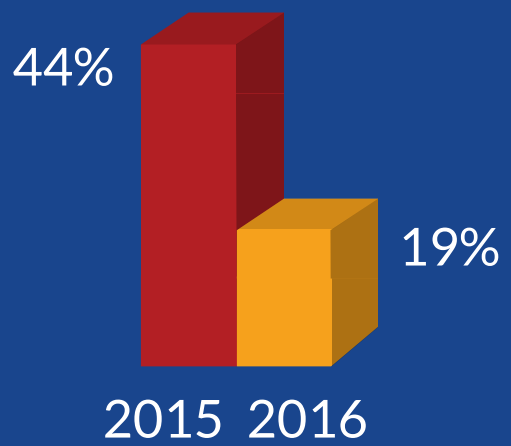

METRICS THAT MATTER SURVEY INFOGRAPHIC

Impact of the IoT

Companies intending to an IoT-related initiative over the next year

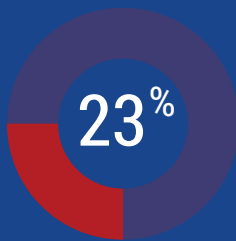

Do not understand the IoT

Manufacturing Software

Data Historians

23% have it, only 8% plan for them in the future

Areas on the increase

- Predictive Modeling
- Plant Analytics
- Manufacturing Intelligence

MOM/MES remain popular

Trends in Aerospace & Defense

51%

49%

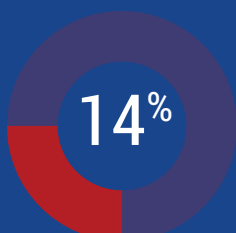

Collaboration with increasingly complex supply chains

Integration of business, engineering & operations

Operational Improvements

An improvement of 10% in manufacturing cost-per-unit implied good improvement in operational metrics.
